# MODEL 200

## DIE CUTTING MACHINE

*Versatile*

*Precise*

*Dependable*

*Quality*

*Productive*

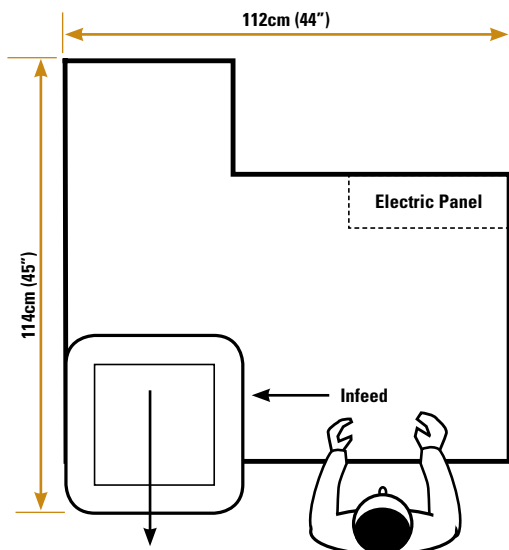

The PMC **Model 200** Die Cutting Machine revolutionized the production of high volume accurate labels. With a variable speed electronic drive and a trouble-free mechanical disappearing shuttle, the **Model 200** doubles the production of ordinary die cutting machines. The **Model 200** can be used as a stand-alone manual machine or in conjunction with a Bander, Feed Table or Strip Cutter to form an automated production line.

# MODEL 200 DIE CUTTING MACHINE

- ▶ Four-sided guiding system jogs and holds the stacks on all four sides during the cutting operation for precise die cutting.
- ▶ Disappearing shuttle doubles production of ordinary die cutting machines, with no loading time delays.
- ▶ Fastest set-up and die change-over in the industry — Convenient adjustment of die and guides with clear view of die register on labels, speeds set-up and reduces waste.
- ▶ Versatile as a stand-alone manual machine, or as part of an automated line including a PMC Bander, Feed Table or Strip Cutter.
- ▶ Typical uses: labels, note pads, credit cards, identification tags, post cards, game cards, 3-way trim, round cornering.
- ▶ Typical Materials: paper, plastic, vinyl, Mylar, paperboard.
